Bridge with Bruce

This class is for new and existing party bridge players (not for experts). Learn a new bidding scheme that is simplistic, yet powerful. This bidding scheme uses popular conventions but is geared toward giving the maximum amount of information per bid and minimizing the bids needed to reach a playable contract. So, if you, your partner or members of your bridge group find the bidding a bit overwhelming, or you're open to a new bidding scheme, this class is for you. The information learned in this class can be easily passed on to others (better yet, they could take the class with you).
