

**February 2022**

**MESSAGE FROM THE PRINCIPAL** – Dr. Mathew Nelson

February is “I Love to Read Month”, and we had a lot of fun officially kicking it off with a gathering in the auditorium on February 1st! Mrs. Rozeske will continue in our tradition of “Stop, Drop and Read”, which is a favorite of the students. There is a good chance that your son or daughter will “get caught reading”, which is a great thing! Other planned “I Love to Read” month activities include Book Bingo, Readers Theater, Town Square Reading, Mystery Readers on the announcements, and our Read-a-thon fundraiser. Information was sent home about our annual Read-a-thon fundraising event.

In our Read-a-Thon each student will have a reading goal of total minutes read outside of school in the month and by acquiring pledges/donations, the students are making a promise to do their best to reach their reading goal for the month. The funds raised in this fundraiser will be used towards the purchase of additional items for student use, including adding additional kid-friendly furniture in our Commons, purchasing an educational Virtual Reality device, and offsetting field trip costs. The main advantages of a fundraiser like this are that the focus is on literacy and **100% of the donations benefit the students of Discovery Elementary**. Thank you in advance for your support. We are excited to kick off our annual Read-a-Thon, which is our **only school-led fundraiser** for the year. Thank you for your support of Discovery and our Read-a-thon.

To culminate our “I Love to Read Month ” activities, on Friday, **February 25th** all Discovery students and staff will be invited to watch the “G” rated movie, Dr. Seuss' **Horton Hears a Who!** in the auditorium on the big screen! I do realize that it sure seems hypocritical of me to share that we are going to watch a movie together at school when in this month’s newsletter we shared a resource about limiting screen time. I shared the resource though as a general reminder because as a parent I feel this is one area that could be improved in my own house! Back to the “I Love to Read Month”culminating festivities...after the movie, we will have our school-wide book character parade in which the students will parade around Discovery dressed as their favorite book character. Additional information will be sent home later this month explaining the Character Parade. It is always such a great, fun day for our students to conclude “I Love to Read Month”.

This year, on February 2nd, our entire school will participate in the Global Day of Play! The purpose of "Day of Play" is to encourage children to PLAY, HAVE FUN, and be CREATIVE. It is great to see the students organizing their own “technology-free” play activities, inviting others to join them, being problem solvers, and compromising! To be honest, I believe that in general children (including my own) don’t spend enough time engaging in technology-free play often enough, so this is a great opportunity for us to help encourage creative play. There have been numerous studies that indicated that uninterrupted playtime is very important for children’s development emotionally, socially, and academically!

**Thank you for your continued support of Discovery Elementary.**

**January Community“C” Students of the Month**

**“Collaborate”**

## Discovery Lottery Application Window Open

The Discovery Lottery application window is now open! A letter and application for Discovery Elementary School enrollment have been mailed out to all BHM families (with a child eligible for kindergarten next fall) that we have record of. Lottery applications have been coming in to us in great numbers, however, we want to make sure all eligible families have the opportunity to apply. The **application window closes on Monday, February 7th.** Please feel free to spread the word to any families that you know that may be interested in applying for enrollment at Discovery Elementary, just in case they didn't receive the information. This year we will also have openings in grades 1-5 as well that we will fill from the waiting list after the lottery.

**“Together We’re Better”**

# TECH OVERLOAD

**FACT:** The average American child spends 50+ HOURS a week in front of a screen. That's more than A FULL TIME JOB!

Recommended daily screen time for children and teens

Average screen time per day  
(TV, video games, tablets, computers, cell phones... etc)

% of children addicted to mobile devices

## The Downside of Screen Time

- Depression
- Fatigue
- Poor Academic Performance
- Anxiety
- Health Problems
- Impaired Self-Control
- Vision Problems,
- Impaired Social Skills
- Obesity
- Aggressive Tendencies
- Poor Digital Footprints
- Developing Unhealthy Relationships

ASK YOUR CHILD:

"What have you always wanted to learn or try?"

"What are you missing out on when you spend so much time on your device?"

## Unplugging Tips!

- Encourage tech-free hobbies and activities.
- Practice what you preach! Children follow by example.
- Create no-tech zones in your home.
- Don't allow devices at family meals.
- Set screen time schedules.

## A Resource for Parents

**Want to limit your child's device use?** OurPact is a free solution for parents to block Internet and apps on all children's iOS and Android devices. Manage screen time by blocking children's devices at-a-touch or through automated schedules. Through our Web App or iOS app, limit device use with a bedtime schedule or set a manual block during a family meal.

## Updates from the Health Office

Greetings from the health office!

Welcome to February! We always feel like we are over the hump of winter once January is behind us!

We want to make you aware that we are continuing to see increased absences due to illness throughout the district. Most commonly seen are COVID and influenza-like illness and Flu. Please remember to encourage your child to wash their hands (preferably with soap and water), cover their cough, eat well and get plenty of rest. **Also, please remember to call the attendance line for every day your child is going to be absent.** This helps us make sure your child's absence is coded correctly, but more importantly, it helps us assure your child is safe and accounted for. Students are welcome to **return to school 24 hours after their last symptom (fever, vomiting, diarrhea), with no fever reducing medications.** If your student is out due to COVID we will work with you to determine their return date. We appreciate your cooperation.

### **Parents of Preschoolers and soon-to-be Kindergartners**

If you have a child who is 3 ½ to four years old or one who is entering kindergarten in September and have not been contacted for Early Childhood Screening, please call Cheri at 763-682-8408. Early Childhood Screening is an early intervention program targeted for children ages 3 1/2 to 4 1/2 years old. It is a mandated program for all children entering kindergarten in the public school however it is intended to be administered at the 3 ½ - 4 years of age.

**Parents of Kindergarten Students Starting '22-'23 school year:** If you have a child beginning kindergarten in September, please consider taking care of their immunization needs now. It is the law that all students must submit an updated immunization status before starting kindergarten. Please submit one of the following: immunization record, notarized non-medical exemption form or physician signed medical exemption form.

Required shots for vaccinated students include:

**5 DTP**

**4 Polio (IPV or OVP)**

**3 Hepatitis B (HBV - not to be confused with Hib, which is the Haemophilus Influenza)**

**2 MMR (Measles, Mumps & Rubella)**

**2 Varicella (Chicken Pox) –** If your child has had the chicken pox illness, the school will need a statement from your health care provider indicating one of the following:

- o The signature of a provider along with the date of the child's varicella illness
- o The signature of a provider along with a statement that the parent's or legal guardian's description of the child's varicella disease history is indicative of past varicella infection.

If you have questions, please contact Heidi Gallart, RN, at [hgallart@bhmschools.org](mailto:hgallart@bhmschools.org) or 763-682-8514.
