Curbside Pick-Up Sites: Parkside Elementary & Montrose Elementary

Meals include a variety of fruits, vegetables and milk.

When and where does meal pick-up take place?

Curbside meal pick-up will be available at Parkside Elementary and Montrose Elementary every Wednesday this summer from 11:00 am - 1:00 pm.

Parkside Elementary

207 3rd Street NE, Buffalo

(Rear door @ the intersection of 2nd Avenue NE & 4th Street NE)

Montrose Elementary

100 SE 2nd Street, Montrose

(Front Entrance)

Do I have to register for curbside meal pick up?

Pre-registration is not required but it does help us for planning and preparation purposes. The registration link can be found on the BHM School District website under Nutrition Services.

Do I need to submit a new registration each week?

No. One new registration is all that you need to submit.
Please do not submit multiple registrations.

Who do I contact if I need to make a change to my registration, including a permanent cancellation?

Email khinrich@bhmschools.org for any changes or cancellations to your registration.

Should my child/children be in the car when the meals are picked up?

Children do not need to be present when meals are picked up.

What happens if there is a scheduled pick-up date that I have to miss?

We understand that this might happen and that's OK! If you register for meal pick-up, we just ask that you try to pick-up your meals as often as possible. You can send a driving age child, relative, friend, neighbor, babysitter, etc. to pick-up meals for you if you are unable to make it during the scheduled times/dates. We are unable to accommodate requests for alternate pick-up dates/times.

Will there be meals available for children with physician documented allergies/food sensitivities?

Yes. Email khinrich@bhmschools.org with your request or questions about special meals for children with food allergies/sensitivities.

This program is solely for the pick-up of meals. We encourage families to continue to be proactive in reducing the risk of COVID-19 by not congregating at sites once meals have been distributed.

Questions???
