Buffalo High School

BUFFALO HANOVER MONTROSE SCHOOLS

Buffalo-Hanover-Montrose School District

The 157 square mile area that makes up the district includes Buffalo, Hanover, Montrose and surrounding townships. The district population of over 32,000 residents includes over 5,800 students K-12. There are six elementary schools (grades K-5), a middle school (grades 6-8), a high school (grades 9-12), an alternative high school (grades 10-12), and a transitions program (age 18-21) within our district. Buffalo-Hanover-Montrose Schools has all of the opportunities of a large school district within a caring, small community.

Buffalo High School

BHS is located about 26 miles northwest of Minneapolis. Buffalo High School is a public school serving grades 9-12 and has a current enrollment of approximately 1,900 students.

Graduation Requirements

BHS requires students to complete 30 total credits to graduate. Our schedule operates on a block system where students take 4 blocks (or classes) per day over a total of 4 terms within the school year. Each block is 80 minutes in length. Each full credit equates to the completion of two quarters/one semester and is the equivalent of a full year course.

English :	4 credits
Math:	3 credits, including Geometry & Algebra 2
Science:	3 credits, including Biology & Chemistry or Physics
Social Studies:	1 credit of each - American Government, American History, World Studies, and .5 credit of Economics
The Arts:	1 credit
Physical Education:	1.5 credits
Health:	.5 credit
Chosen Electives:	13.5 credits

Grading System

Students receive a letter grade at the end of each 9 week quarter. Both rank and GPA are cumulative and computed after each quarter for all courses taken in which a letter grade is received. Each letter grade is assigned a numerical point value, the number of grade points is divided by the number of total grades to determine GPA. BHS uses a 4-point grading scale distributed as follow:

A = 4.00	B = 3.00	C = 2.00	D = 1.00
A- = 3.67	B- = 2.67	C- = 1.67	D- = 0.67
B+ = 3.33	C+ = 2.33	D+ = 1.33	F = 0.00

Courses designated No Credit (NC), Withdrawn (W), Test Out (T), and Pass (P) are not used to determine GPA.

Curriculum

The curriculum of Buffalo High School is one that offers students a wide range of subjects in which to explore on a rigorous level. Along with the state's standard courses, BHS gives students the opportunity to enroll in our Arts Magnet Program which is designed for motivated students who possess an interest in the areas of visual arts, performing arts, literary arts, media arts and applied arts. We believe that the arts teach essential skills for the 21st century that prepare students for college and career. Additionally, BHS is an AVID school-wide high school and offers students in grades 9-12 an opportunity to participate in the AVID program.

Concurrent Enrollment/College in the Schools

Buffalo High School offers 37 college courses in partnership with 5 colleges and universities including the University of MN- Twin Cities, Southwest Minnesota State University, St. Cloud State University, North Hennepin Community College, & Hennepin Technical College. Courses provide students the opportunity to earn high school and college credit simultaneously. Students can earn from 1-5 college credits per course. **CIS class offerings vary year to year.*
